

SPRING COMMENCEMENT

THURSDAY, MAY 9, 2019
SATURDAY, MAY 11, 2019

IOWA STATE UNIVERSITY

Dear Iowa State University Graduates and Guests:

Congratulations to all of the Spring 2019 graduates of Iowa State University!

Welcome to Iowa State University's Spring 2019 Commencement. Congratulations to all of the graduates, and thank you to everyone who played a role in their successful journey through Iowa State.

Commencement is an opportunity to reflect on what you have learned and to celebrate your achievements. Every single graduate has been a valued and important member of the Iowa State community. We are a better university because of the diverse, positive contributions you have made during your time here. We thank you for the many ways you have enhanced our campus – both inside and outside the classroom, and we wish you the very best as you begin your next chapter.

Iowa State is now in its 161st year as the state's only land-grant university. We are proud to be one of the most student-centered public research institutions in the country. Through our distinct mission of education, research, and extension, Iowa State is preparing students for fulfilling careers and lives and for meeting the needs of society. Iowa State graduates will become the professionals, entrepreneurs, and leaders of our state, nation, and world; and their future accomplishments will reflect the exceptional quality of this university. As you graduate today, we thank you for being a part of this wonderful tradition and for supporting Iowa State's legacy of excellence.

I hope you enjoy today's commencement ceremony, and that you will continue to be connected with Iowa State University. We wish you great success and happiness.

Sincerely,

A handwritten signature in black ink that reads "Wendy Wintersteen". The signature is written in a cursive, flowing style.

*Wendy Wintersteen
President of the University*

IOWA STATE UNIVERSITY POINTS OF PRIDE

Profile Information:

- » Iowa State became the nation's first land-grant institution when the Iowa Legislature accepted the provisions of the 1862 Morrill Act.
- » Iowa State is a member of the Association of American Universities (AAU), which consists of 62 leading research-intensive universities in North America.
- » Iowa State has eight colleges that offer bachelor's degree programs, master's degree programs, and Ph.D. level programs, plus a professional degree program in Veterinary Medicine.
- » The Iowa State Research Park is a hub for transferring faculty research and innovation to economic opportunities: eighty-nine companies employ 2,050 people and 300 student interns.
- » Iowa State experienced a 35 percent enrollment growth between 2008 and 2017 and is proud to educate students from all 99 Iowa counties, all 50 states, and 127 countries.
- » Iowa State's athletic teams compete in Division I of the NCAA and are a founding member of the Big 12 athletic conference.
- » More than 254,000 Iowa State alumni live in all 50 states and 149 countries.

Excellence in Research at ISU:

- » A legacy of innovation and discovery:
 - The world's first electronic, digital computer
 - The world's first moving tornado simulator
 - The world's highest resolution, immersive virtual reality lab
 - A supercomputer, Cyence, that blazes through more than 183 trillion calculations per second
 - The nation's first research and demonstration farm for biomass production and processing
- » External funding topped half billion dollars last year
- » Iowa State researchers attract nearly a quarter million dollars from federal, nonprofit, and industry sponsors, who look to Iowa State for innovative and ground-breaking discoveries that solve real problems for Iowa and the world.
 - Researchers are engineering nanovaccine therapies that will be more effective, safer, and cheaper, and that do not require refrigeration, so they can help control disease in areas without reliable electricity.
 - Researchers are adding value to agriculture by creating new biorenewable chemicals from agricultural bioproducts.
 - Researchers are leveraging data from our Veterinary Diagnostic Lab to understand what strains of flu are emerging in real time for swine.
 - Researchers are helping to improve our justice system by quantifying the reliability of matches for shoe prints and bullets.

- Researchers are discovering new materials that make airplanes lighter and more reliable.
- » Iowa State's Veterinary Diagnostic Laboratory is internationally recognized and plays a direct role in protecting animal and human health, the safety and security of our food supply, and advancing Iowa's \$32 billion animal agriculture economy. It is the nation's largest and busiest full-service diagnostic lab for food animals. The lab processed 86,000 cases last year, conducting more than 1.25 million diagnostic tests.

Excellence in Education at ISU:

- » COLLEGE OF AGRICULTURE AND LIFE SCIENCES: The college boasts a record-high 99.2 percent placement rate for graduates within six months of graduation. Placement rates have been 97 percent or higher for more than 20 years, and the college's Career Day is the largest annual student job fair of its kind in the nation.
- » IVY COLLEGE OF BUSINESS: A \$50 million gift from Debbie and Jerry Ivy ('53 industrial administration) named us the Debbie and Jerry Ivy College of Business in October 2017. This is the largest gift in the college's history. At the time, only 14 other business schools in the country had received a larger gift.
- » COLLEGE OF DESIGN: Everything you see, every minute of every day, is likely the product of disciplines that live, work, and play together "under one roof" in the College of Design. In this environment, students learn to collaborate to solve very complex problems, merging the poetic and the pragmatic of our lives.
- » COLLEGE OF ENGINEERING: The college delivers a high-quality experiential-based education to a record number of students. The college has the

largest undergraduate and graduate enrollment on campus, and it ranks 7th largest for undergraduate engineering enrollment in the country.

- » COLLEGE OF HUMAN SCIENCES: The college is developing fireproof clothing for emergency responders, preparing PK-20 educators who teach in every Iowa county, reducing substance abuse, improving food safety, delivering the world's largest dietetics internship program, and advancing diet and exercise science.
- » COLLEGE OF LIBERAL ARTS AND SCIENCES: The college introduced a data science minor and certificate, which enhances any degree at Iowa State. Current students and graduates can obtain the skills to visualize, interpret, and communicate data – skills which are among the highest in demand by employers in nearly every industry.
- » GRADUATE COLLEGE: The Graduate College prioritizes the development of the communication skills of students pursuing master's and doctoral degrees. The college's Center for Communication Excellence provides a wide range of innovative, evidence-based services to enhance essential writing and speaking skills.
- » COLLEGE OF VETERINARY MEDICINE: The college is the nation's first public veterinary school, is one of only 30 in the U.S., and is the 2nd largest. The college focuses on animal and human health, food safety, and animal welfare to the benefit of animal agriculture, economic development, and the health and well-being of humans and their animals.

Excellence in Extension and Outreach at ISU:

- » Annually, more than 1 million people directly benefit from Iowa State University Extension and Outreach programs focused on feeding people, keeping them healthy, helping their communities prosper and thrive, and turning the world over to the next generation better than we found it.
- » ISU Extension and Outreach offers front-door access in all 99 counties connecting the needs of Iowans with Iowa State University research and resources.

ISU Alumni Association:

- » The ISU Alumni Association was founded by the first graduating class (1872) of Iowa State College.
- » The ISU Alumni Association is the second-largest membership alumni organization in the Big 12 Conference.

Rankings:

- » No. 1 (Iowa), top 12 percent (U.S.) best college value, Money Magazine.
- » No. 2 graduate and No. 3 undergraduate program, agricultural and biosystems engineering, U.S. News and World Report, 2019.
- » Top 25 graduate programs (public universities), aerospace; chemical; civil; computer; electrical/electronic; industrial and manufacturing systems; and materials engineering, U.S. News and World Report, 2019.
- » Best value in U.S., Graduate College (No. 5) and criminal justice program (No. 9), Value Colleges, 2017.
- » No. 1 (Midwest) and No. 3 (U.S.) fashion merchandising program, Fashion Schools.
- » No. 8 (U.S.) landscape architecture programs, No. 18 (U.S.) interior design, No. 23 (U.S.) architecture, Design Intelligence.
- » No. 30 (public universities) student engagement, Wall Street Journal/Times Higher Education.
- » No. 2 Best Colleges for Software Engineering and No. 2 Best Colleges for Marketing Degree Programs, Schools.com, 2018.
- » No. 1 Best 4-Year Colleges in Iowa, Schools.com, 2018.
- » College of Agriculture and Life Sciences ranks in the top 4 percent worldwide for agricultural programs, QS World University Rankings.
- » Ames, Iowa, is No. 2 on Livability's 2018 Best College Towns list.

THE OFFICIAL UNIVERSITY MACE

Sculptor Jeanne L. Stevens-Sollman of Bellefonte, Pennsylvania, designed and crafted the mace and presidential chain of office used in Iowa State University's formal academic ceremonies. The complementary pair of bronze and silver ceremonial items are on display in the Alumni Center as part of University Museums' Art on Campus collection.

The mace symbolizes the authority of the university president. The chief faculty marshal carries it at the head of the academic procession and, by placing it on its stand, signals the beginning of the ceremony.

Created in bronze, silver, and tiger maple, Iowa State University's mace is an interpretation of the campanile. The bronze headpiece features two campus landmarks – the Campanile and Christian Petersen's Fountain of the Four Seasons—and a silver presidential seal inscribed with "Iowa State University—Science With Practice." The tiger maple staff bears bronze plaques inscribed with the names of all previous Iowa State presidents and their years of service. The mace is 60 inches long and weighs 14 pounds.

THE PRESIDENTIAL CHAIN OF OFFICE

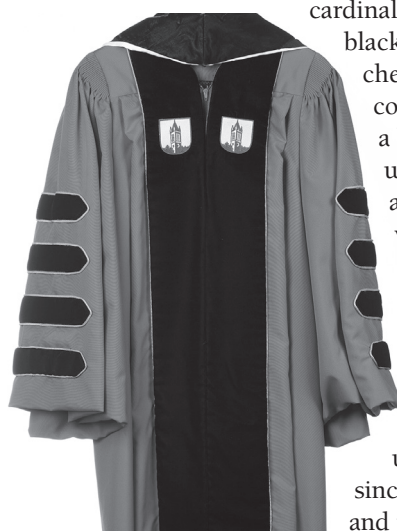

The presidential chain of office symbolizes the rich history and traditions of Iowa State University. It features an image of the Campanile on the front. On the back is a representation of Beardshear Hall, home to the president's office. The columns of Beardshear form the shoulder epaulets, inscribed with "leadership" and "service." The Campanile-inspired links in the presidential collar contain the words "engagement," "learning," "discovery," and "access." The reverse sides of the bronze sections feature low bas reliefs of corn.

The mace and first presidential chain of office ("Monile Praesidis Maximus") was commissioned by University Museums and the ISU Alumni Association in 2008. The second presidential chain ("Monile Praesidis Secundum"), a proportionally smaller version commissioned by University Museums in 2018, was supported by an anonymous donor and Carole A. and Roger E. Custer.

ACADEMIC REGALIA

In May 2008, Iowa State University debuted custom-designed doctorate regalia. The special commencement doctorate gowns were created with emblems and colors to reflect Iowa State's tradition and to complement Iowa State's hood. The fabric is

cardinal red gabardine with black velvet panels and chevrons edged with gold cording. The Campanile, a beloved symbol and university tradition, adorns the two front velvet panels. An eight-sided black velvet tam with a gold silk tassel completes the official regalia.

Academic gowns have been part of the university experience since the twelfth century and the advent of the first European universities.

Because these early schools were connected to great cathedrals, the black gown of the schoolmasters, or scholastics, emulated the somber dignity of the clergy and signified a life devoted to learning. In addition, the ample materials of the gown served to keep the scholars warm in the drafty environment of the medieval university.

A confusing array of caps, gowns, and hoods emerged from the centuries in Great Britain and from early years of higher education in the United States. American institutions recognized the need for a standard code and the great majority of academic costumes now worn in the United States are in accordance with the general provisions of the Intercollegiate Code of 1895. This code was slightly

revised in 1932 and again in 1959. Under this code, the bachelor's gown has pointed sleeves; the master's gown has oblong sleeves with an arc at the bottom; and the doctor's gown has bell-shaped sleeves.

The code dictates that bachelor's and master's gowns are untrimmed. However, the doctor's gown is faced down the front with velvet and has three bars of velvet across the sleeves.

The square shape of the scholar's cap or mortarboard is thought to denote the stability of scholars and their books. Candidates for advanced degrees wear black tassels. The following is a list of tassel colors for baccalaureate degree candidates:

Agriculture and Life Sciences – *Maize*

Business – *Nugget*

Design – *Brown*

Engineering – *Orange*

Human Sciences – *Maroon*

Liberal Arts and Sciences

Bachelor of Arts – *White*

Bachelor of Liberal Studies – *White*

Bachelor of Music – *Pink*

Bachelor of Science – *Golden Yellow*

Veterinary Medicine – *Gray*

The hood gives color to the academic costume while its length indicates the wearer's academic degree. At Iowa State, hoods are worn by master's and doctorate degree recipients. Hoods were added to the official academic attire of master's degree recipients in May 2018. In general, hoods are made of a wide panel of black cloth, matching the gown and are lined with satin in the official academic colors of the institution awarding the degree.

Iowa State University's colors are cardinal and gold, therefore, the top half of the lining is gold and the lower part is cardinal. The colors used in the edging of hoods and tassels are associated with the discipline.

HOODING CEREMONY, DOCTOR OF PHILOSOPHY

The Doctor of Philosophy is the university's highest academic degree, awarded only to those who have successfully completed an intensive and demanding course of study whose primary focus is on learning to conduct original research.

The final stage of the program is the preparation and defense of a dissertation that describes the outcome of a major research project. To prepare for that project, the student must have gained expertise and skills in a particular discipline and must have thoroughly explored its existing knowledge base. Those who receive doctorates have demonstrated that

they are truly experts in their fields whose research has contributed significantly to human knowledge.

The hooding ceremony symbolizes their admission to the exclusive ranks of those who have earned the respect associated with the title "Doctor of Philosophy." During the hooding ceremony, the degree recipients are escorted and hooded by their major professors who have worked with them throughout their study for the doctoral degree. The hoods will connect the graduate with a family of scholars throughout history and from all parts of the world.

SPECIAL RECOGNITION, ADVANCED DEGREES

Candidates for graduation for the Master's or Ph.D. may be recognized with the Teaching Excellence Award or the Research Excellence Award.

The Teaching Excellence Award recognizes those who provided outstanding contributions in teaching undergraduate students while working toward a graduate degree.

The Research Excellence Award recognizes those with outstanding research accomplishments in a graduate program.

Honorees for both awards wear cardinal and gold honor cords and are noted in this program as follows:

§ Research Excellence Award

†† Teaching Excellence Award

SPECIAL RECOGNITION, UNDERGRADUATE DEGREES

Candidates for undergraduate degrees may be recognized for graduating "With Distinction" and/or graduating in the Honors Program. Levels of special academic achievement are indicated in the commencement program by Latin phrases, also known as Latin honors. This system is recognized internationally; however, the requirements vary among institutions. In the United States, Latin honors are most often awarded to those earning undergraduate degrees. Each academic institution sets its own standards and requirements for each honor.

At Iowa State University, candidates for graduation with distinction must have completed 60 semester credits of coursework at ISU at the time they graduate, including a minimum of 50 graded credits. Those graduating summa cum laude (with highest distinction) have earned a grade point average of 3.90 or higher; magna cum laude (with great distinction) have a grade point average of 3.70 to 3.89; or cum laude (with distinction) have a grade point average 3.50 to 3.69. Grade point averages are based on a 4.00 scale. In addition to the notation

in the commencement program, this recognition appears on the official transcript and diploma.

The University Honors Program is an individually planned program of study designed to provide greater depth and breadth of scholarship than the regular curriculum. Those graduating from the University Honors Program have designed and completed an individualized program of study, including an independent Honors Research Project, while earning a required minimum grade point average or better.

Students graduating with special recognition will wear a cord and/or medallion and will be noted in this program as follows:

*** Summa Cum Laude – with highest distinction (cardinal and gold cord)

** Magna Cum Laude – with great distinction (gold cord)

* Cum Laude – with distinction (cardinal cord)

† Honors Program (medallion)

ADDITIONAL RECOGNITION, UNDERGRADUATE DEGREES

The George Washington Carver Scholarship and Academy is designed for high achieving multicultural students and supports their growth and academic success through specialized curricula and programming. The George Washington Carver Outstanding Achievement Award is granted to those scholars who have demonstrated involvement in a combination of activities such as outstanding community service and successful internships and who are graduating with a 3.50 grade point average or better. These scholars are wearing green stoles.

Iowa State University's Cardinal Key Honor Society, formed in 1926, recognizes students who have achieved the cardinal virtues of leadership, service, scholarship, and character in the university community. Undergraduates must be of junior or senior standing, have earned a minimum cumulative grade point average of 3.00 and be in the top 15% of their academic class. Membership is limited to no more than ½ of 1% of the senior class, and ⅓ of 1% of the junior class. These students are wearing two red cords intertwined with a single gold cord.

competitive grants and gifts to achieve that objective.

She serves on several boards and committees including the Educational Testing Service Board of Trustees (currently vice-chair); the International Advisory Board of the Freie Universität Berlin; the International Board of ITMO University in St. Petersburg, Russia (currently chair); and the U.S. National Academy of Sciences, Policy

and Global Affairs Committee.

Dr. Stewart has written on a wide array of higher education issues and lectures on higher education, research, and global competitiveness at major universities and education organizations around the world. She is the author or co-author of numerous scholarly publications on administrative theory, public policy, and education policy.

Prior to joining CGS, Dr. Stewart was vice chancellor and dean of the graduate school at North Carolina State University. She also served as interim chancellor at UNC-Greensboro (1994) and as graduate dean and then vice provost (1988-1998) at NC State.

Dr. Stewart has received honorary doctorates from Université Pierre et Marie Curie (2007) and Loyola University Chicago (2013), and the Distinguished Alumna Award from University of North Carolina, Chapel Hill (2008).

Dr. Stewart received her Ph.D. in political science from University of North Carolina, Chapel Hill, her master's degree from the University of Maryland, and her BA from Marquette University.

Major: Sustainable Agriculture and Environmental Science

Emily Zimmerman has earned a Ph.D. in Sustainable Agriculture and Environmental Science from Iowa State University.

While at Iowa State University, Emily published a first-authored journal article in *Water Resources Research*, a co-authored journal article, and a co-authored book chapter. Emily has delivered 20 oral and poster presentations at academic conferences and meetings. Currently, Emily is working on two articles and has an additional journal article under review.

In addition to her scholarly contributions, Emily served in leadership positions in the Natural Resource Ecology and Management Graduate Student Organization and the Sustainable Agriculture Student Association at Iowa State University. Emily received the Teaching Excellence Award from the Graduate College and the Natural Resource Ecology and Management Graduate Student Organization Outstanding Teaching Award. Her participation in the International Association of Landscape Ecologists earned her the NASA-MSU Professional Enhancement Award in 2015.

After graduation, Emily plans to continue her role as Lecturer in the Global Resource Systems program in the Department of Horticulture at Iowa State University, a position she has held since 2017.

Escorts: Dr. Lisa Schulte-Moore, Professor of Natural Resource Ecology and Management

Dr. John Tyndall, Associate Professor of Natural Resource Ecology and Management

MASTER OF SCHOOL MATHEMATICS

Major in School Mathematics

Kelly Jo Chizek

Toledo, Iowa

MASTER OF SCIENCE

Major in Aerospace Engineering

Anshul Chandel *Chandigarh, India*
THESIS: Comparison of URANS and DES models for dynamic stall of NACA 0012 at low Reynolds number

Sampson Davis *Bayport, Minn.*
THESIS: Asymptotic analysis of hypersonic boundary layers over an adiabatic wall with deformations

Brian Christopher Schwinke Kempa *Granger, Ind.*
THESIS: Embedding runtime verification post-deployment for real-time health management of safety-critical systems

Sravya Sasetty *Gadwal, India*
THESIS: CO₂ sequestration in a capillary tube via an interfacial chemical reaction between pressurized CO₂ gas and aqueous glycerol Ca(OH)₂ solution.

Daniel Xiaoyang Zhou *Auckland, New Zealand*
THESIS: Airline fleet planning and utilization hours comparison studies

Major in Agricultural and Biosystems Engineering

Sadaf Ghorbani *Tehran, Iran*

Major in Analytical Chemistry

Daniel Jefferson Freppon *Bushnell, Fla.*
THESIS: Understanding the photophysical properties of methylammonium lead halide perovskites

Major in Animal Physiology (Ethology)

Ella Elizabeth Akin *Corning, Iowa*

Major in Animal Science

§ Emily Hannele Branstad *Forest City, Iowa*
Brooke Catherine Dooley *Le Roy, Ill.*
THESIS: Characterization of corn stover pelleted with soybean meal or dried distillers grains on lactating cow performance, eating behavior, and rumen function

Carrie Suzanne McCarthy *Gladbrook, Iowa*
THESIS: Evaluating the effects of rumen-protected glucose (RPG) on production, metabolism, and inflammation in transitioning dairy cows

Major in Applied Mathematics

Christine Wiersma *St. Johns, Mich.*

Bowen Xie *Anshan, China*

Major in Architecture

Boram Kim *Mokpo-si, South Korea*
THESIS: Interdisciplinary research into architecture and music: An evaluation of acoustic performance of a selection of spaces and of materials

§ Panhavuth Sar *Phnom Penh, Cambodia*
Melvin Glenn Veigas *Doha, Qatar*
THESIS: A study of novel strategies of utilizing cellulose at various scales and optimizing material distribution

COLLEGE OF VETERINARY MEDICINE COMMENCEMENT SPEAKER

Dr. Vincent Meador

Vincent Meador graduated from Ames High School and earned his BS, DVM, MS, and Ph.D. from Iowa State University. Vince is a Diplomate of the American College of Veterinary Pathologists with both Anatomic and Clinical certifications and is an affiliate professor at University of Washington. He has been a recognized foreign expert by the Sichuan government

and visiting professor at Sichuan University in China. Following a few years as a practicing veterinarian (primarily pet animal, with some cattle, sheep and equine work), he worked for the USDA and major pharmaceutical companies gaining experience in both bench and management positions, with his last position being preclinical Global VP of Pathology for the largest drug development CRO in the world. Vince currently has a drug development and pathology consulting company called Pacific Tox Path LLC, was a co-starter of a hard apple cider company, and has had a major role in establishing a drug development laboratory in Shanghai, China.

COMMENCEMENT SPEAKER, AND HONORARY DEGREE RECIPIENT, DOCTOR OF SCIENCE

Dr. Robert A. Easter, President Emeritus of the University of Illinois

Robert A. “Bob” Easter is President Emeritus of the University of Illinois, having served that institution with distinction for 42 years. His was a career of exceptional intellectual activity, and outstanding leadership, all delivered with humility and integrity.

Dr. Easter was appointed a Lecturer at the University of Illinois at Urbana – Champaign in 1976 and became a full Professor in 1987. Following a 26 year career in research, he assumed

the position of Department Head in 1996 and after five successful years, was appointed Dean of the College of Agriculture, Consumer and Environmental Sciences.

In 2009, he was asked to serve as Interim Provost for the flagship Urbana-Champaign (UIUC) campus until a search for a permanent Provost could be completed. Beginning in May of that year, the Chicago Tribune published a series of articles questioning the role of several gubernatorially appointed University of Illinois Trustees in obtaining admission of non-qualified students to the Urbana campus. In the ensuing months, several Trustees, the University System President, and the Chancellor of the Urbana-Champaign campus resigned.

In the fall of 2009, the reconstituted Board of Trustees asked Dr. Easter to assume leadership of the UIUC campus as Interim Chancellor, a position he held until 2011. In 2012, Dr. Easter was appointed President to “bring stability” to the university system. He accepted that offer and remained in that office until 2015. During this period, he worked tirelessly with faculty and administrators, external stakeholders, the governor, state legislators, federal agencies and members of the Illinois Congressional delegation to restore morale and sustain funding in support of the educational, teaching and public service missions of the university.

During Dr. Easter’s tenure as President, enrollment on all three campuses continued to grow as did research funding. There was a leadership transition on the Chicago campus and successful restructuring of the administrative structure on that campus in recognition of the specialized requirements of the seven health science colleges, the affiliated medical colleges in Peoria and Rockford, the billion-dollar per year teaching hospital, and the associated clinics throughout Chicago. Shortly before his retirement, the Board approved an initiative to create a specialized, engineering-science-

based medical college on the Urbana campus.

In recognition of Dr. Easter’s career in research, he was the recipient of the American Feed Industry Association Award in Non-Ruminant Nutrition and the Fellow Award, both presented by the American Society of Animal Science. He was also made an honorary member of the American Society of Agricultural and Biological Engineers. His service to the university was acknowledged with the Distinguished Service Medallion presented by the Board of Trustees. The University of Illinois Foundation raised in excess of \$2 million to establish the Robert A. Easter Chair to be held by the Dean of the College of Agricultural, Consumer and Environmental Sciences.

Despite a tremendous workload on campus, Dr. Easter also served his country and his community. He was a member of the U.S. Army Reserves for 20 years. President George W. Bush appointed him to Chair the Board on International Food and Agricultural Development, the agricultural advisory board to the Director of USAID. He served on the Chicago Council on Global Affairs committee assigned to develop recommendations for the U.S. Farm Bill in 2002 and 2008. He chaired the Task Force on Antibiotic Resistance, a joint effort of the Association of American Veterinary Colleges and the APLU. Since retirement, he serves as an advisor to two USAID international agricultural development projects and on numerous Boards including two organizations active in supporting increased funding for agricultural research, the Agricultural Leadership Foundation, the Illinois State Fair Foundation, the Lincoln Academy of Illinois, and FARM Illinois, which he served as founding chair. He speaks regularly at meetings in the U.S. and internationally on food and agricultural and university leadership topics.

Dr. Easter is a scholar who is as adept at research as he is in disseminating knowledge to solve real problems. He achieved distinction as an administrator, achieving great success at each level: a good listener, a compassionate colleague and an administrator who always placed his highest priority on the best interests of his institution. As such, he is a model for advancing the mission of land grant institutions. Indeed, Easter’s whole career exemplifies Iowa State University’s motto of “science with practice.”

Dr. Easter grew up on a grain and swine operation in southwest Texas and earned his undergraduate and master’s degrees at Texas A&M University and his doctorate at the University of Illinois. Dr. Easter and his wife, Cheryl, currently live in rural Mahomet, Illinois and have two children and six grandchildren.

COMMENCEMENT SPEAKER, AND UNDERGRADUATE COMMENCEMENT VOCALIST

Simon Estes, F. Wendell Miller Distinguished Artist in Residence

Simon Estes is an internationally acclaimed bass-baritone who has performed in the world's major opera houses and in special performances for U.S. presidents and international dignitaries such as Boris Yeltsin, Yassar Arafat, Yitzhak Rabin, Nelson Mandela, and Archbishop Desmond Tutu. Since 2000, he has been a faculty member at Iowa State University, serving as the F. Wendell

Miller Distinguished Artist-in-Residence with the Department of Music and Theatre, sharing his incredible talents and musical knowledge with students and at numerous activities and events.

Estes rose from humble beginnings in Centerville, Iowa, the son of a coal miner and grandson of a slave, to become one of the world's most accomplished opera singers, paving the way for other African Americans in the classical world. He transferred from Centerville Junior College to the University of Iowa in 1957 and was there until he was accepted in the Juilliard School of Music in 1963. Estes has honorary doctorates from numerous colleges and universities, including one from Iowa State University.

In 1965 Estes made his operatic debut in *Aida* at the Deutsche Opera in Berlin. Among his more

than 100 lead operatic roles have been the title role in *The Flying Dutchman* at Bayreuth, being the first male African American to sing a major role on stage there; the role of Porgy in the Metropolitan Opera's first production of Gershwin's *Porgy and Bess*; and the role of Amonasro in *Aida* with Leontyne Price as *Aida* in her "farewell performance" at the Met.

Estes is also internationally known for his humanitarian efforts for children. He established the Simon Estes Educational Foundation, which has awarded more than three million dollars in merit-based college scholarships, and the Simon Estes International Foundation for Children, which provides support for children's health and educational needs. In 2006, he led a group of six Iowa State music faculty members to South Africa to bring music instruction to the students of the Estes school in the Cape Town area.

He has performed numerous benefit concerts to help combat HIV/AIDS and eliminate malaria in Africa. Estes was recently recognized by the United Nations Foundation for personally raising more than half a million dollars for the "Nothing But Nets" campaign, which provides funds for education and bed nets to protect people from the spread of malaria throughout the world.

Estes has taught at the Juilliard School of Music, Harvard University and Boston University. Among his many awards are the Distinguished Iowa Citizen Award, the Iowan Award, and the prestigious Alumni Award of Iowa State University.

SENIOR CLASS COUNCIL

The mission of the Senior Class Council (SCC), a committee of the Student Alumni Leadership Council (SALC), is to benefit and unite seniors through events and services while promoting an understanding of the Iowa State University Alumni Association. The 2018-2019 Senior Class Council is comprised of 12 students who are dedicated to recognizing seniors for their many achievements.

The Senior Class Council plans a number of programs for seniors including both Fall and Spring Senior Weeks, where seniors enjoy special tours and free food on campus; the Senior Package, a gift

set that included commemorative Iowa State items; Grad Breakfast, a chance for seniors to relax and enjoy a meal served by ISU faculty and staff; and the Senior Send-off, a year-end event for seniors at the ISU Alumni Center to celebrate seniors' transitions to being alumni! The events that SCC plans and co-sponsors are intended to be both beneficial and enjoyable for seniors.

For more information on SCC and SALC programs, please visit www.isusalc.org.

IOWA STATE UNIVERSITY ALUMNI ASSOCIATION

Cyclones Everywhere

Iowa State University alumni are more than 250,000 strong. And they are everywhere ... in all 50 states and 152 countries – a family united by the Cardinal & Gold. No matter if your adventure takes you far from the heartland or if you put roots down right here in Iowa, if you're a Cyclone, you're never really far from home.

Keeping graduates connected to Iowa State and each other is the No. 1 goal of the ISU Alumni Association. Through reunions, events, social media, and other communications, the Alumni Association is your one-stop-shop to re-engage with your university.

Here are six ways to continue your Iowa State adventure through the Alumni Association:

1. Connect with Cyclones everywhere through our local affiliate groups in more than 30 locations.
2. The ISU Alumni Center is your forever home. Stop by the Center (420 Beach Ave.) on your way to central campus; better yet, park at the Center and ride CyRide!
3. Take advantage of the Association's career resources, like resume reviews, webinars, blogs, and job-hunting tips.
4. Download the Iowa State Alumni App from the App Store or Google Play.
5. Stay connected with Cyclones everywhere through the online Alumni Directory – and don't forget to update your own information when you move or change jobs.
6. Become a New Grad Member of the ISU Alumni Association and receive discounts, invites to events, and more (www.isualum.org/newgrad).

Dear Al - ma Ma - ter, make our spir - its great,
True, and val - iant like the bells of I - o - wa State.

THE HISTORY OF "THE BELLS OF IOWA STATE"

Iowa State University Library
Special Collections Department

James C. Wilson (1900-1995) was a member of Iowa State's English faculty from 1928 to 1931. He had to resign due to his lack of a Ph.D., and prior to his departure, he submitted a college song candidate for a song contest sponsored by the Iowa State Club of Chicago.

Jim and his wife, Alice, moved to Chicago where as he notes, "We (in addition to their two babies) had \$212 in cash from my last paycheck, our five-year-old Chevrolet, and the tent." He won first place with "The Bells of Iowa State," and the family was able to purchase a small cottage on Lake Michigan.

"When I wrote 'The Bells of Iowa State,' I thought then that it had much more depth and emotion than your basic football fight song," Wilson said. "Its continuing popularity leaves me very pleased, not so much because it's my own song, but because it has had such a good effect on those who have been touched by it." (The Iowa Stater, June 1983)
